

IT'S NEVER
BUSINESS
AS USUAL

MBA in
Engineering Management

MBA in **Engineering Management**

ABOUT THE PROGRAM

Fast forward your career with a Master of Business Administration in Engineering Management. In one year you can earn an MBA-Engineering Management degree at the University of New Brunswick in Fredericton. Offered through a partnership between the Faculties of Business Administration and Engineering, the MBA-Engineering Management degree is specifically designed for working engineers like you, with courses scheduled around your working day. This degree program will help you gain the skills to advance into a supervisory or management position, and run the business end of engineering successfully.

PROGRAM OVERVIEW

Throughout the MBA-Engineering Management degree program you will learn how business theory is applied to engineering practices by taking a combination of courses in both subjects during the first two terms. Then, a practicum in the final term will ground your academic program in your work experience. Courses are offered in four different formats: compressed weekday, compressed weekend, regular evening courses, and independent research.

PROGRAM REQUIREMENTS

To obtain the MBA-Engineering Management degree you must complete 54 credit hours of course work as follows:

Pre-Term (Mid to late August)

- MBA6203 Accounting for Managers (3 ch)
- TME6313 Managing Engineering and IT Projects (3 ch)

Term 1 (September – December)

- MBA6606 Business Data Analysis (3 ch)
- MBA6403 Financial Management (3 ch)
- MBA6103 Professional Development I (3 ch)
- MBA6303 Marketing Theories and Strategies (3 ch)
