

How To Get Embedded Videos In D2L to Play Properly In Your Browser

Mozilla Firefox

- 1) Click on the **Security Badge/Icon** in the upper left hand side of your address bar.
- 2) Select the Action button next to where it says “**Keep Blocking**”
- 3) Select **Disable Protection on This Page**.

Google Chrome

- 1) Select the **Security Badge/Icon** at the end of the address bar in the top right hand corner of the screen.
- 2) Select "**Load unsafe script**"

Internet Explorer

When the security window appears saying "Do you want to view only the webpage content that was delivered securely?", select "**no**".
