

# CANADA'S FIRST DEGREE IN INTERDISCIPLINARY LEADERSHIP

UNB's Renaissance College provides an innovative, accelerated, interdisciplinary degree program that focuses on leadership studies with a minor in a discipline of the student's choice. Upon completion, students receive a Bachelor of Philosophy in Interdisciplinary Leadership.

A place to call home, Renaissance College is housed just off the main UNB campus in a welcoming, historical Victorian mansion. As a cohort of no more than 30, students core classes take place in the building. They are also encouraged to use the college at any time for meetings, meals, studying and connecting with their classmates.

Courses challenge students to think critically, communicate effectively, work cooperatively, problem solve creatively, anticipate change and integrate all learning. The discussion-based classes, community-based projects, student-centered learning, and civic engagement figure prominently in the educational approach of the program.

## APPLICATION REQUIREMENTS

- Grade 12 academic English
- Four electives - Group 1
- One elective - Group 1, 2 or 3

For specific courses visit [UNB.ca/admissions/requirements](https://unb.ca/admissions/requirements)

## INTERNSHIPS

Key components of the program are two mentored, full-term leadership focused internships. The first is domestic and focuses on leadership in the work environment. The second is international and is designed as a cross-cultural learning experience.

## ACCELERATE YOUR DEGREE

Complete a four year degree in three years. This is accomplished by participating in our unique summer internships. Renaissance College students put their learning into action through a Canadian internship – after the first year – and an international internship – after the second year. Students can also choose a traditional four-year route.

## AFTER GRADUATION

With the versatility, knowledge and skills to succeed graduates pursue a wide range of career paths and professions. Careers in business, education, health care, law, social work, politics, government agencies, non-profit organizations, and more are common. Some students go directly into the workforce while others choose to go to graduate or professional school immediately after obtaining their degree.
