BEATRICE ADKINS, née Goodwin, (BA'34)

Beatrice Goodwin Adkins died at York Care Centre in Fredericton, N.B., May 31, 2015. She was born in Baie Verte, N.B., November 29, 1914, to Roby Norman Goodwin and Belle Dobson Goodwin. Bea is survived by her step children: Sarah Macfarlane Wilbur (the late Dr. C. She was predeceased by her husband, Dr. Leslie John Adkins, stepdaughter Beverley Adkins Wells, brother Gerald Goodwin (Glenna) and sister Elizabeth Taylor (the late Kenneth). As a 6th generation descendant of Daniel Goodwin, she was a passionate genealogy and history enthusiast. Goodwin was a soldier in the British Army in 1750s Nova Scotia. Two of his sons served the 104th New Brunswick Regiment marching from Fredericton to Quebec in the War of 1812. Following graduation from Port Elgin Superior School, Bea received her Bachelor of Arts, First Class Honours (English and French) in 1934 from the University of New Brunswick. She taught school in Port Elgin. Bea worked in Ottawa during World War II. Although not considered a veteran, she quickly advanced from the typing pool to become secretary to a deputy minister in the Department of Munitions and Supply under

the watch of Hon. C.D. Howe. She obtained her MA and PhD in Psychology (1960) from Columbia University. As a Licensed Psychologist, she was a member of the American Psychological Association and a member of the New York State Psychological Association. She practiced in New York City for over fifty years as a Psychotherapist, Child Psychologist and Marriage Counselor. In the years following WWII, the field of psychology experienced a period of rapid advancement as new specialties were established, new leaders emerged and new methods developed. New York City, particularly Columbia University, was a centre of academic excellence. Bea's husband Dr. Leslie John Adkins was an active participant and leader. Together they worked on certification of psychologists, strengthening cognitive psychology, therapeutic use of hypnosis, and the applications of group counseling. Not only were they marital partners and personal friends, they were professional colleagues who derived considerable satisfaction from their work together. In her practice, Dr. Beatrice Adkins developed a reputation as a warm, personable, thoughtful healer. She listened, cared and provided comfort and insight to people dealing with difficult conflicts, complex relationships and unclear goals. For many patients, she was part of a life-long support system giving love, guidance and genuine friendship. Bea's annual sojourns to Baie Verte, the place of her birth, her love for family near and far, her relentless study of literature and the arts, her optimistic view of the world, and her sense of humour carried her through 100 years. She was known for her love of cats who were her constant companions. She was a "life long learner" and always "young at heart". Everyone who knew Annie will treasure their own special memories.

Annie was blessed with good health into her eighties, living independently at home, due in great part to the support and kindness provided by her neighbours, doctors, extra mural nurses, and especially her care-giver, Sherry Woodworth. The family also extends their appreciation and thanks to the staff at Forest Dale Home for the excellent care and special attention given to Annie. Following Annie's wishes her body has been donated to Medical Science at Dalhousie University Halifax, NS. A Memorial Service to celebrate Annie's remarkable life will be announced at a later date.

He was hospitalized for a year and continued to be bothered by injuries for the rest of his life. He returned to flying briefly when his squadron was assigned to submarine patrol. He was awarded the Atlantic Star, normally a naval award. Offered the opportunity to repatriate to Canada because of his injuries, he instead was allowed to remuster to Ground Crew and was assigned as Flight Sergeant in charge of a large maintenance hangar for the remainder of the war.

DONALD YOUNG (Class of '51), Fredericton, NB

C.M., Ph.D., LL.D.

Donald Alcoe Young, Fredericton, NB, died on December seventh, 2015, at the Oromocto Public Hospital Palliative Care Unit at 86 years of age. He was the son of Louis Church Young and Mary (Molly) (Alcoe) Young and the husband of Donna Kathryn (Signer) Young.

He is survived by his wife and their three children: Kirsten Emily (Sherman) Yee, Burnaby, BC; Margot Diane Young, Halifax, NS; and Scott Camron (Jane Robinson) Young, Fredericton, as well as three grandchildren: Emily Mary and

Olivia Jane Young Cantwell, and Parker Camron Young, one sister, Margaret Mary Waldon, lives in Kamloops, BC.

Donald cared deeply for his family, had a lifetime commitment to Plant Science, a passion for boating and sailing, and everything related to wood. His workshop, his garden and the property with the Osprey nest, along the Saint John River were treasured locations during his adult life.

Born and raised on the Experimental Farm in Fredericton, Donald gained an early appreciation of everything related to Agriculture. His University career began at Nova Scotia Agricultural College, Truro, NS. He completed a Bachelor of Science at Macdonald College, McGill University, followed by a Ph.D. in Genetics and Plant Pathology at the University of Wisconsin. In 1957, he accepted a position as a Research Scientist with the Agriculture Canada Research Station in Fredericton and began his journey with the potato. During his 46 year professional career he worked in 29 countries around the world. Examples include a five year term as Technical Director of a huge and highly successful CIDA sponsored project in Keshan, China and an assignment as Potato Section Leader in a CIDA sponsored Bangladesh Crop Diversification Project.

Donald's first love was potato variety development. Once he was appointed Project Leader of the Agriculture Canada Potato Breeding Program in 1967, he established a team that pioneered the breeding of varieties for niche markets (early maturing, chipping, and French frying varieties as well as several varieties for offshore markets and starch production). It was a multidisciplinary work group unique in North America. His personal research focussed on data handling systems, potato quality selection methods, and yield prediction. The first computer-based information retrieval system, anywhere, was developed by the Breeding Program in 1968.

The team established to develop a French frying variety achieved their goal with the release of one named Shepody. It gained wide acceptance in Europe and North America and is still grown around the world in countries with a French frying industry. "Team Shepody" received several national awards. In his 20 years as Project Leader more than a dozen new potato varieties were released including several with familiar names: Yukon Gold, Caribe and Raritan. Interest in offshore markets for Canadian seed potatoes led Dr. Young to participate in the creation of the Canadian Seed Potato Export Agency. He served as Technical Director as well as Chairman of the Technical School Committee, an ongoing cooperative project with Nova Scotia Agricultural

College which delivers technology training to selected students from countries who purchase Canadian seed potatoes.

Within the potato research community Dr. Young was recognized as an innovator. He understood the complexity of potato research, advancing technologies and effectiveness of multidisciplinary work groups. He chaired the Atlantic Potato Committee and edited the first three editions of the Atlantic Canada Potato Production Guide. A work group which shared research and extension developments between the State of Maine and Maritime provinces was created.

Don retired from Agriculture Canada in 1986 and shortly thereafter joined McCain Foods as a part-time consultant. He helped establish and coordinate worldwide potato research and development projects and evaluated potential sites for new processing plants. He also addressed specific regional potato production problems for the Company.

For the Young family, there was also play. They owned a number of boats. The first was a small cabin cruiser built by Donna and Don in 1958. Their last nights on board, together and alone, were spent behind Pine Island in Washademoak Lake in October of this year. Favourite sailing locations were always the Saint John River System and Penobscot Bay, Maine. Yet, they sailed and cruised alone and with family and friends in many distant waters on boats they chartered or owned. In 1963 Donald, with the late Stanley Spicer, established the Fredericton Power and Sail Squadron. He remained an active member for the rest of his life. Donald was Life-President of the Nova Scotia Agriculture College Class of '50. With Jack Johnson, Life Secretary of the Class, he carried a leadership role for the Class and with the Institution for 65 years. He was a member of the Fredericton Botanic Garden Association, The Nature Trust of New Brunswick and a Friend of the Unitarian Fellowship of Fredericton.

During his career he held numerous positions within the Potato Association of America, including a term as President. That Association presented him an Honorary Life Membership in 1991. He was granted a Doctor of Laws, honoris causa, from Dalhousie University in 1993, and became a Member of The Order on Canada for his lifetime contribution to Plant Science in 2010.

The family expresses gratitude to Dr. Kathleen Woods, Oromocto and Dr. Paul Sohi at the Saint John Regional Hospital, as well as the Medical Directors and staff of the Palliative Care Units at both locations for gentle care of Donald.

There will be no visitation or service. A private interment of ashes, in a pine and mahogany box made by the deceased, will take place in the family plot at

Maplewood Cemetery near Petitcodiac. Donald's grandfather, Rev. J.B. Young, was instrumental in establishing this cemetery. Friends, colleagues and neighbours are invited to join the family at a Gathering to commemorate Donald's life at Kingswood Lodge on December 17th from 3 to 6 pm. The family suggests that contributions in Donald's memory be made to any Hospice Facility or other charity of your choice. Personal condolences may be offered through www.yorkfh.com

EDWARD "TED" STEPHENSON (BScEng'57), Grand Bay-Westfield, NB

The family of Edward [Ted] Stephenson wishes to announce his passing on January 21 at age 81. He did not leave this life willingly as there was much more yet to do.

Ted was born in Saint John, December 15, 1934 the only son of the late Ralph and Frances [Smith] Stephenson. A proud graduate of Saint John High School and the University of New Brunswick in Mechanical Engineering, Ted spent most of his working career with Lantic Sugar and its subsidiary companies retiring in 1993 as Senior Vice-President of Refined Sugars in Yonkers, New York. During his many active years, he served his chosen field as President of the Association of Professional Engineers of New Brunswick, and of the world-wide Sugar Industry Technologists. He was elected to the Westfield Village Council in 1995 and nominated as a Fellow of Engineers Canada in 2008, which he considered the peak his professional career.

Twenty-two years of retirement have provided the opportunity to play the grandparent, renovate the residence, travel, and ski. Always active, Ted was a competitive badminton player, an avid golfer, bowler, sailor and – learning at the age of fifty – a fanatical skier. He remained an active member of the Westfield Golf and Country Club, the Maritime Seniors Golf Association, APENB, and the Culture Club.

He is dearly missed by his love, best friend and wife, Diane, by his children and stepchildren: Dr. James D. [Jane] Stephenson, Saint John; Brian A. [Adele Wallace] Stephenson, Rothesay; Dr. Linda A. MARIE MACBEATH, née MacDonald, (BEd'65, PhD'71), Fredericton, NB

Dr. Marie MacBeath (nee MacDonald) died peacefully at Dr. Everett Chalmers Hospital (DECH) on November 13th with loving family by her side. A scientist, teacher and communicator, Marie has a mission to make science understandable and accessible to everyone. She was endlessly curious and engaging. Behind the scenes Marie, (Rie to her grandchildren), was devoted to

family and stayed in touch, often through the latest technology; (an example is her blog 'Age of Rieson' <http://rieson.blogspot.ca>). She married her husband George "happily and for life" in 1949; he predeceased her in March 2013. Marie's commitment to healthy living, including the importance of lifelong learning, kept her vibrant and engaged with life until close to the end despite health issues. Her positive energy, loving nature, and strength were inspirational, teaching us by example how to live, and how to die. Born in Campbellton on January 23, 1925, and raised there, Marie completed an undergraduate degree in science at Mount Allison University in 1946 and was the lifetime vice president of her class. At 46, she returned to her studies and completed her PhD in Physical Chemistry from the University of New Brunswick, teaching there until retirement in 1990. It was after retirement that Marie's star rose highest. Together with a collection of devoted volunteers, Marie was the enthusiastic driving force behind the establishment of New Brunswick's science centre, Science East, in 1994. She visited and studied science centres around the world in search of best practices in her drive to maintain the quality and innovation of Science East's programs and exhibits, a tradition that continues today. Marie was the recipient of Canada's highest honour of public science promotion, the Michael Smith Award from the Natural Sciences and Engineering Research Council of Canada in 2002. She was also one of the original directors of the Canadian Association of Science Centres, which awarded her the Outstanding Career Achievement Award in 2014. Marie was delighted to have reached the milestone age of 90, and to have witnessed the progress of science through her lifetime. Though a global citizen who travelled widely, New Brunswick was home. She will be greatly missed by her two daughters and their families: Lyn and Judie MacBeath, grandchildren Nancy Johnston Munn, Kate Howes, and Geordie Howes, and

her greatgrandson, Wesley Mullin. Marie's motto was "follow your bliss" (quoting Joseph Campbell), and she encouraged us to do the same. An informal celebration of Marie's life will be held at the Wu Conference Centre, University of New Brunswick Fredericton campus, on Friday, December 4th from 3:00 to 6:00 PM. In lieu of flowers, Marie requested that donations be made to Science East at www.scienceeast.nb.ca or by calling 506-457-2340. Appreciation to Dr. Paula Carmichael and Dr. Jennifer Gillis-Doyle, and the caring staff of 4NW DECH. Published Wednesday November 18th, 2015, Daily Gleaner

JOSEPH THOMPSON (BEd'68, PD-Ed'75, MEd'79), Nauwigewauk, NB

1944-2015

It is with sadness the family of Joseph Leonard John Thompson, age 71, of Nauwigewauk, NB, announces his passing, which occurred on Thursday, October 8, 2015 in Palm Springs, California. Joe was born on August 22, 1944 to Leonard and Theresa Thompson, and baptized on September 17, 1944 at Our Lady of Perpetual Help, Rothesay, NB. He was predeceased by his parents, and his infant brother, Michael Edgar.

Joe is survived by his wife of 48 years, Wanda M. Theresa (Rogers) Thompson; his daughter, Mary Beth (Lorne) Buchanan of St. Peter's, Cape Breton, NS; sons, Peter (Kelly McGee) Thompson of Vancouver, BC; and Darren (Stephanie Brennan) of Leduc, Alberta. PapaJoe will be sadly missed by his grandchildren, Tavish and Declan Buchanan, Ethan and Elise Thompson, Reid, Noah and Seth Thompson. He was so very loved as Uncle Joe by Mary Theresa (Gordon) Ferris, Joshua Ferris, Chelsea (Brett) and Mason Langis. Joe's brothers and sisters, Anne (Ross) Titus, of Gorham's Bluff, Ronald Thompson of Nauwigewauk, Gerald (Beth) Thompson of Quispamsis, Marlene Thompson of Quispamsis, and Paul Thompson of Quispamsis, miss their "first born" brother dearly.

Husband, Dad, Papa, Teacher, Administrator, Writer, Environmentalist, Bird Watcher, Outdoor Education Enthusiast, Traveler, Litter Picker, Facilitator, Musician, and "wannabe" Farmer. Most of all, he was "Joe". Walking into any room, it was never long before all were involved in somehow meeting and introducing themselves to each other, because Joe made sure of it. Joe's enthusiasm for life, smiling and laughter was contagious, and his wonder of this marvelous world made others enjoy it alongside him.

The home of Leonard and Theresa Thompson was a busy one, and often filled with extended family and friends.

Joe proudly served as an Altar Server and Lector for many years at Our Lady of Perpetual Help, Rothesay. His faith and roots of service grew strong.

He and Wanda met in 1961 while Joe was delivering Gates' Store groceries to Claire and Emmy Duffley's home in Quispamsis. After attempting to "give Wanda up for Lent", he couldn't. His life was far richer with her in it. He proposed, and they married on July 1, 1967. The date selection for their wedding was to be their Centennial Project, and of course, a date that Joe would not be able to

forget. Their first wedding anniversary...he forgot. Mary Beth arrived in 1969, Peter followed in 1970 and Darren was born in 1975.

Joe grew up in Model Farm (Quispamsis). He was shaped by his rural environment, close extended family ties, and 8 years of attendance at the one room Model Farm School. He was a graduate of Rothesay Regional High School, St. Thomas University 1966 (BA); UNB 1968 (B.Ed and M.Ed) and University of Florida 1979 (Sp. ED) while on sabbatical leave. Education was his passion as a well known classroom teacher at the former Hampton Consolidated School, and KVHS, the last principal of HCS, and district administrator, primarily that as secondary school supervisor in District 18 and 19, later District 6. Joe counted his students and colleagues as his friends. He and Doug Crowley, were responsible for a well known teacher staff development program, informally and affectionately known as "The Doug and Joe Show" for several years.

Joe was active in his community. He was President of Quispamsis Recreational Council, a member of Nauwigewauk Community Club executive, and the fair committee for several years. He was for many years a cub and scout leader in Chatham, Quispamsis and Rothesay. Joe was a founding member of the New Brunswick Heart Surgery Support Group and a long time member of its executive, including presidency. He was a long time board member of the Dr Snow Center, as well as the NB Provincial Nursing Home Board of Directors. Joe was the Chair of the "Save Nauwigewauk" Committee when the divided highway project began. In leaving for California this fall, he was excited to know that the federal election campaign in Fundy Royal was in good stewardship with Jennifer MacKenzie and provincially with Bev Harrison. As a long time member of the federal and provincial NDP parties, his efforts in campaigning for change for his country was exciting for him to see and to share with others.

As a parishioner of St. Alphonsus Roman Catholic Church, his godchildren, and all those he sponsored in their journey of faith know of Joe's great love of his church, and the faith community he served. Joe was involved in many ministries: music; lector; parish council; catechist; focus presenter; intercessions coordinator and composer; and member or facilitator of several parish committees. The significance of his faith community in his life is impossible to calculate, and unimaginable without him.

Joe played his Martin guitar, Gwendolyn, every chance he could for years as a music minister at St. Alphonsus, at kitchen parties, birthday parties, family gatherings, anywhere! His favourite "gigs" were with his friend Ken Garey entertaining at nursing homes for many years in Sussex and Quispamsis, and with

his daughter Mary Beth at various events in Cape Breton. A highlight for him every summer was attending the Kitchen Racket Ceilidh and Workshops in St Peter's, learning from wonderful folk music teachers and musicians. His banjo, BJ, proved to be a more challenging instrument, but Joe was learning to master traditional "pickin". Attending local jam sessions in Saint John, Florida and California earned Joe new friends and fellow musicians wherever he went. He loved learning from them all, and was thrilled when they would celebrate his new accomplishments. Joe loved how music would move people, and encouraged them to participate, no matter their skill level. He would remind them that he would always identify himself as a Beginner too. As a musical encourager and leader, he was Master Class. Joe entertained, and nothing made him happier when those he entertained enjoyed the gift of music he presented to them.

Joe's early life was filled with memories of working on his Uncle John's (Higgins) farm. As a "wannabe" farmer, Joe managed to really look the part his tractors Handy Andy, Eaton, Big-but-really-little-Red, Sow's Ear, and Charlotte completed the look. After all, how can you be a farmer without a tractor? Joe loved spending time in the "Barnage" (barn/garage) caring for his animals: Tony the pony, Willow the Donkey, Rosie the Hereford (and each of her 13 calves), Monica, Nicole and Ellie the sheep (and each of Monica's 5 lambs), and Sorrel Pinto Miniature Horse Sedona BelleBelle co-owned by PapaJoe and Elise. Joe's animals were the excuse for the tractor collection, and were truly sources of joy for him. Opening the dining room window every morning would have Willow running up the field, braying as loudly as she could and Joe would let her know he was on the way with her favourite grain. His beloved English Setter dog Annie, was never far from his side in the fields. His favourite farming crop was potatoes, and as an environmentalist, refused to spray for potato bugs. Many an evening with the grandchildren was spent squishing the bugs! Joe kept a garden until the deer began enjoying his work as much as he did.

Joe enjoyed 27 years of a healthy, active life following a triple bypass. With great care from his family physician, Jim Collins and cardiologist, Dr. Bewick, Joe walked 6kms every single day, and enjoyed swimming exercises at Fred and Betty's pool this summer. It was a source of pride for Joe to take his daily calorie counts and glucose readings to his diabetic clinic appointments, and always receive a sticker for a job well done!

In retirement Joe was an Executive Consultant and facilitator and involved in business ventures with his children, the latest being GOwithHIPPO Travel. He was

always proud to pass out business cards, and proclaim:"Everywhere You GO, GOwithHIPPO!"

Joe and Wanda traveled extensively, and for the last several years, spent winters in both Florida and California. Countless trips to Disney with the grandchildren, cruises, Europe, Hawaii, picnics, museums, maps and cross Canada adventures in the Hammer Nutrition Big Rig, all made Joe happy. Never driving the same road twice was the foundation for any of our family trips, and always making sure we had lots of egg salad sandwiches for whatever adventure was next were the priorities. When someone would ask if Joe wanted to go, his response was always, "BOOK IT!"

Some of the greatest inspirations of Joe's life were the teachings of Ivan Ilich, a Jesuit priest and his enlightened view of education; Arthur Combs and Humanistic Education, later called Invitational Education; Madeline Hunter and Ted Forte and Mastery Teaching; Model Farm School; Leonard and Theresa, his parents; and Wanda's love and courage. "Well Done, Good and Faithful Servant", our love goes with you, Joe/Dad/Papa/Uncle Joe, on your next and greatest exploration <3

Joe is resting at Reid's Funeral Home (506-832-5541), 1063 Main Street, Hampton, NB with visitation on Sunday, October 18 from 2 to 4 and 6 to 8pm, and Monday 2 to 4pm. Funeral Vigil will be held on Monday at 8:00pm from St. Alphonsus Catholic Church, all are welcome to attend. The Mass of Christian burial, celebrated by Father Kevin Barry, and Father Don Breen, will be held on Tuesday, October 20, 2015 at 11:00am from St. Alphonsus Catholic Church, followed by a reception downstairs. GLENN EDISON (BPE'73, BA74, MPE'80), Summerside, PE

Glenn Graham Edison, 62, died in Mississauga ON, Tuesday, April 22nd 2014.

Through his involvement in the community our Dad focused his life on connecting with and supporting youth. As a mentor, coach, educator and colleague Dad worked to help members of his community to find a sense of confidence and agency to develop their potential. By encouraging thoughtful, reflective and open forum on important matters he sought to demonstrate one's ability to bring positive influence to one's own environment. His strongest message may have been to remind people of the process of learning - That it takes humility, the acceptance of where one is in light of where one wants to be, to approach the subject with wonder, and that it is an ongoing, dynamic process; "It's not that you can't do it, it's that you can't do it yet", he would say... "If you fall off the horse, get right back on". Taking teaching to heart in any role and offering his genuine care, Dad showed us all how a commitment to learning can foster a loving engagement with our surroundings. He was a proud and present Dad and Grandad. His steadfast love will live on within the character he instilled in us. Reflecting on his life, he said to us: "I did more good than anything else. I gave more than I took".

With infinite gratitude, Grace & Gale Edison

In lieu of a funeral, a gathering to express condolences to family will be held at the SIS cafeteria on Wednesday, April 30th from 6-9pm. In place of flowers, donations can be made to KidSport PEI.

JANET HOLDER (BScEng'79), Prince George, BC

A life beautifully lived. With broken hearts we announce that Janet Arlene Holder passed away on August 31, 2015, following a brave and courageous battle with leukemia. She was 58. Janet was a magnetic, compelling and inspirational friend and leader. She leaves an extraordinary legacy of family and friends who were as devoted to her as she was to them. From her birth on July 15, 1957 to her death on August 31, 2015. She nourished and counseled those around her with humour, a keen interest in their lives, and unfailing optimism. Janet was born in Prince George, British Columbia to Mervin Kenneth Holder and Mabel Eliza Nielsen, two solid and supportive members of the community. Although Janet was quiet and shy when she young, she still developed lifelong friends. Her shyness probably contributed to her deep appreciation of nature, camping, dogs and the quiet, introspective times she freely shared. Janet

attended the University of New Brunswick where she received a degree in Chemical Engineering, then later expanded her management skills by completing an MBA at McMaster University. She returned to McMaster a second time to become a graduate of the first class to receive a Board of Directors certification. Janet's love for sports led her to become an international power lifter while still early in her career. Her determination and willpower spilled into all aspects of her life and each career step. She focused on doing each job with honesty, fairness and force of will to succeed. These attributes helped Janet become the first woman President of Enbridge Gas Distribution in its over 125 year existence. She was most proud of her recent Northern Gateway team. The team embodied her deep principles and values. They worked with enormous integrity and purpose even in the face of adversity and at personal expense. Janet strove to make a difference in the lives of those she met. She was a remarkable mentor, an exceptional listener, and an extremely giving person. She led by example and was a passionate supporter of the Enbridge Ride to Conquer Cancer, numerous United Way campaigns and the St. Elizabeth's Health Care Foundation, where she was a dedicated board member for over a decade. Janet strongly believed in St Elizabeth's vision to "honour the human face of health care" across Canada. Janet found inspiration in adversity and spoke publicly about her battle with breast cancer and, more recently, her brave fight with leukemia. She leaves an indelible mark on the world and will be profoundly missed. She can be summed in the simple phrase: Janet was an extraordinary person. Janet is survived by her partner, best friend and husband Neal Cockshutt; brothers Stanley Wayne Holder and Thomas John White. ARTHUR BOURNS (DSc'81), Burlington, ON

Born December 8, 1919, to Evans and Kathleen Bourns in Petitcodiac, New Brunswick, and died May 29, 2015, in Burlington, Ontario. He was predeceased by his beloved wife, Marion (Blakney), whom he married in 1943, and his daughter Susan Milne (Bill). He is survived by three children, Barbara Brown (Douglas), Robert (Myra), and Brian (Elizabeth); 11 grandchildren, Christopher, Stephen, Jennifer, Michael, Tyson, Sarah, Amy, Annie, Colin, Timothy and Karen; and 14 great-grandchildren, Charlotte, Liam, Nathan, Shannon, Molly Marion, Maya, Sofi, Madison, Mason, Dawson, Emerson, Kenya, Ethan, and Evan. Arthur is survived by two siblings, Gordon (Phyllis) and Elinor Nicoll and was predeceased by his sister, Pauline Corey.

Emeritus Professor Dr. Bourns had a long and distinguished career at McMaster University, Hamilton, Ontario, with which he was associated for 68 years. Following graduation from Acadia University, he studied at McGill University where, in 1944, he was awarded Ph.D. in Chemistry. Following a short research

employment with the Dominion Rubber Company and teaching at the University of Saskatchewan, Arthur Bourns joined the Chemistry department at McMaster University in 1947 as Assistant Professor.

He taught at McMaster for 35 years and was an inspiring teacher and researcher. He was known internationally for his many contributions to physical organic chemistry as well as for providing leadership within the department that would develop into a top Canadian school. He was appointed full Professor in 1953 and served as Chairman of Chemistry.

In his role as Chairman, McMaster recognized a faculty leader with exceptional administrative skills. As well, he became known for his love for the students and high regard for the faculty members. He was appointed Dean of Graduate Studies for five years, briefly returning to the department chairmanship until the University underwent reorganization in 1967 and appointed Dr. Bourns as Vice-President, Science and Engineering.

In 1964, Dr. Bourns was elected Fellow of the Royal Society of Canada.

In 1972, the University turned once again to Arthur Bourns, asking him to succeed Dr. Harry Thode as McMaster President, a role in which he was to demonstrate exceptional administrative capabilities, providing strong leadership during a time which was difficult for university presidents. He served as President, 1972-1980 and left an indelible imprint. He was known to be fair-minded and possessed a breadth of understanding and concern as the University grew and dealt with the associated demands. At the beginning of his presidency, the University was into its third year developing its-now-renowned medical school, for which he was instrumental in fostering strong faculty appointments.

During this period, he served as a member of the National Research Council of Canada (1969-1975), and on its Executive Committee, then, following, as member of the new Natural Sciences and Engineering Research Council. Within these two national agencies, he brought his capabilities to bear on their important roles in funding university research in Canada. In addition, he served on the Editorial Board of Science Forum and with the Ontario Committee on University Affairs, each for five years. Further, with his inexhaustible energy, in 1974, he was elected to the Board of Directors and the Executive Committee of the Association of Universities and Colleges of Canada. These appointments spoke so highly of the respect that his Canadian colleagues had for his qualified capabilities.

In 1975, The Chemical Institute of Canada awarded the prestigious Montreal Medal to Arthur Bourns for his devotion to promoting chemistry in Canadian

universities and his involvement with The Institute. As a teacher and researcher, he demonstrated high integrity for his students, and he could often be found working with them in the laboratory, providing individual attention and guidance. His well-developed lecturing technique, combined with a particularly- effective use of the blackboard, enabled him to make his subject come alive.

In 1982, he was made an Officer of the Order of Canada. As a result of his distinguished academic career, Dr. Bourns was awarded five honorary degrees. Following the presidency, Arthur Bourns brought his capabilities to a number of scientific and educational bodies, acting as scientific and educational advisor to governments in Canada and abroad. From 1985 to 1992, he served as chairman of the International Advisory Panel - Canada, US, Britain - advising the Chinese government and university officials on the development of China's universities. In 1985, he was appointed honorary professor at China's Jiangxi University.

In 2012, Dr. Arthur Bourns was honoured by the McMaster Alumni Association and awarded Honorary Membership.

A remembrance service and celebration of Arthur's life will be held in the McMaster Divinity College Chapel on Sunday, June 7, 2015, at 2 p.m., followed by a reception at McMaster's University Club. In lieu of flowers, the family requests donations to McMaster University or a charity of your choice.

Great-

grandfather of two great grandsons: Grey Daniel Stokes and Emmett Sean Dolan.

Born on March 16, 1929 at St. Joseph's Hospital in Saint John N.B. to Mary (nee Donovan) and Leslie Britt. Throughout his life, Dan loved Saint John and its people. He was proud of his fifth generation Saint John Irish roots, and always considered himself fortunate to be a Canadian.

Besides his parents, he was predeceased by two brothers: Raymond and Kenny; two brothers-in-law: Dr. Eric Dysart and Ron Levasseur. He is survived by three sisters: Shirley Dysart of Saint John, N.B., Joan D 'Amours (Guy) of Sorel, Que., and Anne Levasseur of Saint John, N.B.; two brothers: John "Jack" (Marjorie) of Saint John, N.B. and Gerald (Mary) of Trenton, Ont. Also mourning his loss are three sister-in-laws: Bonnie Britt of Fredericton, N.B., Ellen Britt of Surrey, B.C., and Alyse Quarless of Somerset, New Jersey; brother-in-law Dr. Jerry Wowchuk (Marlene) of Rothesay, N.B.; several nieces and nephews, and extended family and friends. Danny, along with his brothers and sisters, grew up in the East End of Saint John in the Cathedral Parish. He graduated with honours from St. Vincent's Boys High School in 1947 where he was active in high school sports, CYO Club and Cadet Corp. He was the first recipient of the Bishop Patrick Bray Bursary. He obtained his BSc at Loyola College in Montreal, where he played intercollegiate hockey and rugby. At McGill Faculty of Dentistry, he played on championship intramural softball and touch football teams. It was in Montreal where he met and wooed the beautiful Olga Wowchuk – an extraordinary love story that has left us all in awe. After they married in 1955 in Montreal, they moved to Renforth, N.B. to start a family while Dr. Dan began his dental practice in Saint John. Actively pursuing continuous education throughout his career, he was a pioneer of Preventative Dentistry in Saint John, inspiring many young students to follow his path. He was President of the N.B. Dental Society, which later recognized him as Honourary member; President of the Saint John Dental Society; and Founder and President of the Fundy Dental Study Club. He received an Honourary Doctor of Science degree from UNB Saint John for his contributions to his profession and community.

Danny was a born organizer. Even in his early days in the East End, he raised funds to buy baseball jerseys for his neighbourhood team by selling raffle tickets for a box of chocolates.

He often said, "Saint John is a city of volunteers"; and throughout his life he gave back to his community: President and First Life Member of Kennebecasis Lions Club; Lion of the Year Award; International Melvin Jones Fellow Award;

President Renforth Community Club; First President Kennebecasis Park Home and School Association; Chairman of the Children's Aid Society; Coach and Manager of Hockey, Softball and Baseball clubs; original K-park outdoor rink committee member; Chairman Renforth Regatta; Weekly panelist on CFBC radio "Vox Pop"; Parish Council Our Lady of Perpetual Help; Liberal Candidate 1960 Provincial Election; President Kings County Liberal Association; President C.A.M.R (Saint John); Fund Raising Chairman for: Our Lady of Perpetual Help Church, Chalet - School for children with developmental challenges, Belfast Children's Vacation Fund, Saint John United Way, St. Joseph's Hospital Rooftop Garden; Founder and Fund Raising Chairman for First Annual Hospice Dinner; Honourary Oarsman for Kennebecasis Rowing Club; Director Market Square Corporation; Co-Chairman 150 Irish Famine Commemoration; Chairman 60th St. Vincent's Boys Reunion; President and Life Member St. Patrick's Society; Director of First Board of the Irish Canadian Cultural Association; Founding President and Honourary President of the Saint John Chapter of the Irish Canadian Cultural Association; Parade Marshall and Keynote Speaker St Patrick's Week Celebrations; Provincial Program Chairman and Director of the International Gathering of the Irish; Co-Chairman St. Mary's Cemetery Celtic Cross; and just two months before he passed away, Dan received a personal honour from the Government of Ireland for his efforts in promoting Irish Canadian identity and heritage in Saint John.

Dad was a wonderful father. He had strong values for love, tolerance and fairness. Kind and compassionate, all of his family sought after and immensely valued his wisdom and advice. Dad had a wonderful wit and charming sense of humour, and always had a story or Irish song to share with his grandchildren. A voracious reader, Dad's bookcase was filled with biographies, politics, and Canadian and Irish history. But above all, he loved Olga with an awe-inspiring and everlasting love. The love and respect they showed to each other is a beautiful legacy for our entire family. They loved their travels together including many trips to Ireland, and that amazing trip to Moscow in 1972 to watch the Canada-Russia Hockey series. Dad was passionate about hockey, especially his Montreal Canadiens. Later in life, Dad would always say how lucky he was to have loved and to have been loved by our mother, Olga. We are grateful that Dad was blessed with a long, full and purposeful life. He will be sorely missed by his large extended loving family.

The family appreciated the skilled care of Dr. Elizabeth MacDonald and Dr. Donald Sutherland, and of all the nurses and caregivers who gave Dad that

extra support during his last few days as he rested peacefully at St. Joseph's Hospital.

Arrangements are under the care of Brennan's Funeral Home, 111 Paradise Row, Saint John (634-7424) with visitation on Monday, January 18, 2016 from 2-8pm.
