

Courses to Fulfill MEd Counselling Entry Requirements

The following courses will be accepted as fulfilling the prerequisite requirements for entry into the MEd Counselling program. Note that many of them (e.g., ED3021, NURS 3031, SCWK 5043) have enrollment restrictions and are only open to students in certain programs. We recommend that students who need to fulfill prerequisites take (a) UNB ED5141 and (b) ED5142 or ED5065, offered by the Faculty of Education at UNB Fredericton. People who are not BEd students may register in them as prerequisites to the MEd Counselling program, provided space is available. You can do so by contacting educ@unb.ca to explain your situation and make a request to take the course. For all other inquiries related to the MEd Counselling program, please contact edgrad@unb.ca.
