

Knowledge, technical innovation and teamwork are at the center of who we are. Employing 126,000 people representing over 140 nationalities and working in more than 85 countries, Schlumberger provides the oil and gas industry's widest range of products and services from exploration through production. We're looking for men and women to join our global family in this effort.

WesternGeco provides land and marine seismic acquisition technologies and techniques for unrivalled subsurface imaging in any environment. We know the work is tough, but if you're ambitious, innovative, and hardworking, a WesternGeco career may be for you.

7x3 rotation cycle entails a highly mobile lifestyle spanning continents and cultures, tropics and frozen, from down under to the land of midnight sun. And all around the world!

We are currently recruiting for Seismic Engineers to join WG in our Marine Positioning Department.

Come and find out more on January 12th @ 12:30PM in Room E4

If you would like to apply, please submit an application to the Field Engineer position on <http://careers.slb.com>
