

PIZZA PARTY!

Surveyors On Site (SOS) will be in the GGE Department Thursday November 7th 2019 at 12:30 pm in E4 to meet with students for free pizza and to hold interviews for summer and full time work. SOS is growing and we need motivated surveyors to add to our team! SOS is looking to hire students to work in our Windsor, Detroit, Sudbury, Chatham and New Liskeard offices.

SOS was recently awarded the survey contract for both the US and Canadian sides of the Gordie Howe International Bridge (GHIB) project. Valued at 5.7 billion dollars, the GHIB is the largest infrastructure project in North America.

SOS is a technology driven company investing in the latest and best equipment as being the backbone of our company. We offer full benefits, great pay and an opportunity to work with a great team on some interesting projects. Currently SOS employs over 20 people, 6 of which are either current or former UNB graduates. Some of our company highlights include:

- Winning the 2017 Small Company of the Year award from the Windsor-Essex Chamber of Commerce.
- Won the 2017 Biz-X award for "Surveyors Who Go The Limit".
- Presented at HxGN Live 2018 in Las Vegas in June 2018. Chris Oyler presented a breakout session entitled "Staying on Track - Laying the Framework for the Gordie Howe International Bridge".
- 3D laser scanning is a growing part of our business. We have a Leica P40 laser scanner, and can model structural steel, buildings and infrastructure with amazing speed and accuracy.

So come on out, introduce yourself and we look forward to meeting with you!
