

UNB LAW STRATEGIC PLAN

SMALL ENOUGH TO MAKE ANYTHING POSSIBLE

Within the next decade, we will re-establish ourselves as one of the top five law schools in Canada by enhancing our programs and services. In pursuing each of these goals, we will emphasize reconciliation, equity, diversity, and inclusion. These principles reflect our core values of caring for students and fostering a collegial learning and working environment. They also further our obligation as a law school to serve the public interest and promote confidence in the administration of justice.
