Suggested Themes for Data Visualization Competition

The Impact of Covid-19:

- Housing availability and affordability in Atlantic Canada (or your region)
- Population growth in selected cities
- Office space utilization post-Covid (e.g. using Google Places data)
- Migration to New Brunswick during Covid-19
- The impact of inflation (e.g. grocery prices) from 2021-2023
- Changes in employment (quiet quitting, remote work, retirements, labour shortages)

Extreme Weather & Climate Change:

- Frequency and impacts of extreme weather events (e.g. forest fires, floods, hurricanes)
- Impacts of climate change on humans, plants and wildlife

Local Issues (can be adapted for your geography)

- Post-secondary foreign graduates: do they remain in New Brunswick?
- Entrepreneurship in New Brunswick: is it increasing or decreasing? (Background article from Globe & Mail)
- The impact of Airbnb rentals on housing in Fredericton, Moncton, and Saint John
- Effect of construction on business activity in Fredericton (or your city) (e.g. using Google Places data)

Health Care:

- Wait times for healthcare
- Access to family physicians, emergency care, urgent care
- Availability of professionals (physicians, nurses, support staff) and future trends

Your Own Theme:

- You can pick your own theme as long as your data set is publicly available, relevant and timely.
