NEW BRUNSWICK**
197TH ENCAENIA CEREMONIES

MAY 27-28, 2026
10 A.M. AND 2:30 P.M.

THE RICHARD J. CURRIE CENTER | UNIVERSITY OF NEW BRUNSWICK
FREDERICTON CAMPUS

CONGRATULATIONS!

GRADUATES: CONGRATULATIONS!

Today is your day. Graduation celebrates not only the completion of your academic journey, but the perseverance, curiosity and determination that brought you to this moment.

As members of the UNB family, we come together to mark this extraordinary milestone and to honour all that you have accomplished.

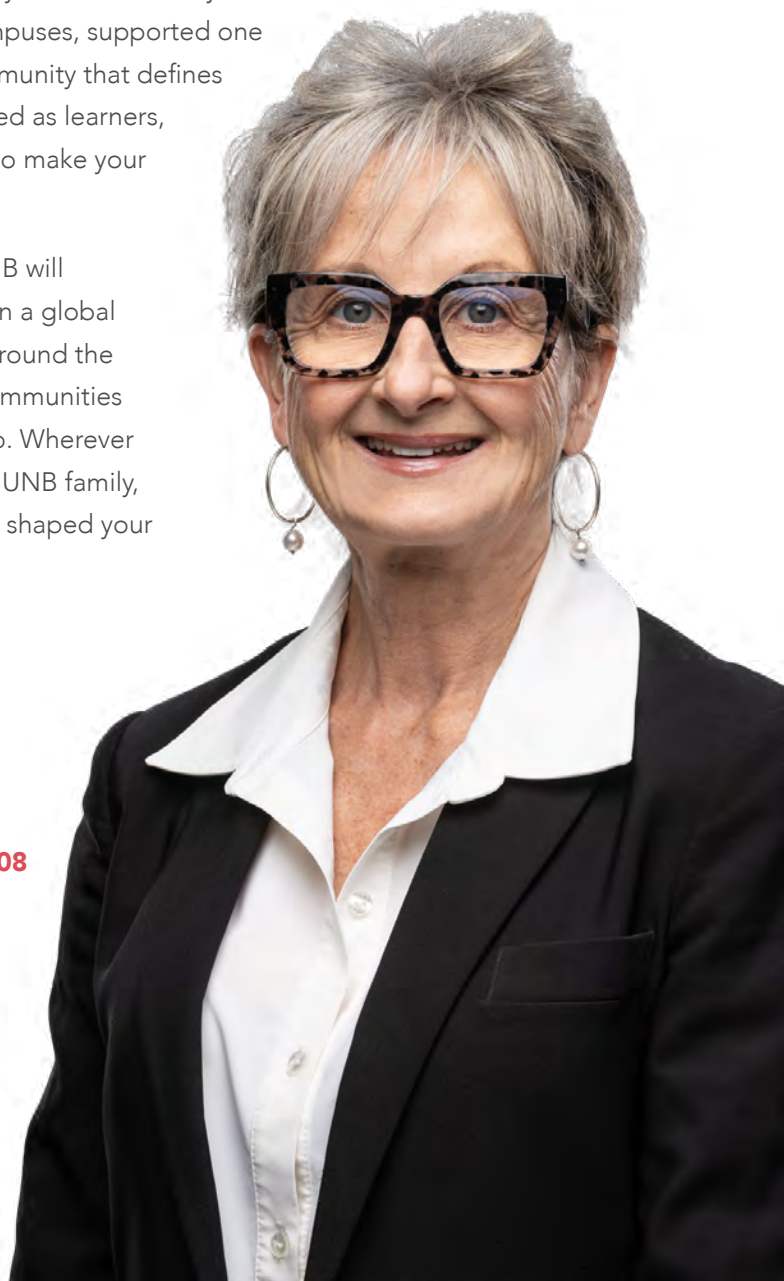

During your time at UNB, you challenged yourselves, discovered your strengths and grew in ways that will shape your lives well beyond the classroom. You contributed to our campuses, supported one another and helped build the vibrant community that defines the University of New Brunswick. You arrived as learners, and today you graduate as leaders ready to make your mark!

As you take your next steps, know that UNB will always be part of your story. Today, you join a global UNB family of more than 100,000 alumni around the world, graduates who are shaping their communities through service, innovation and leadership. Wherever your journey leads, you remain part of the UNB family, carrying with you the values and spirit that shaped your time here.

With warmest congratulations,

KATHY WILSON, RN, BN'87, MN, PhD'08
Acting President and Vice Chancellor

LAND ACKNOWLEDGEMENT

We respectfully acknowledge that UNB stands on the unsundered and unceded traditional Wolastoqey land.

The lands of Wabanaki people are recognized in a series of Peace and Friendship Treaties to establish an ongoing relationship of peace, friendship and mutual respect between equal nations.

The river that runs through our city is known as Wolastoq, along which live Wolastoqiyik — the people of the beautiful and bountiful river. Wolastoq is also called the St. John River.

CEREMONIAL TRADITIONS

ENCAENIA AND CONVOCATION

Graduation brings together the entire University community — students, faculty, administrators, staff and alumni. The official components of the celebration take place on the platform.

The University of New Brunswick's Fredericton campus is one of the few institutions in North America that refers to its spring graduation ceremonies as **Encaenia**. The term comes from the Greek word encaenia, meaning "festival of the founders." The first Encaenia was held in Fredericton on June 24, 1830, at what was then King's College (later UNB). Introduced by Oxford graduate Edwin Jacob, the first and only head of King's College, Encaenia did not begin as a traditional graduation ceremony. Over time, the founders' tributes, speeches and reports gradually gave way to the awarding of degrees and the recognition of student accomplishments. The Fredericton campus also holds **Convocation** each October.

The University of New Brunswick's Saint John campus, established in September 1964, held its first convocation ceremony in May 1975. Since then, the Saint John campus has celebrated **Spring Convocation** in May and **Fall Convocation** in October each year.

USE OF LATIN

Although Latin has long ceased to be the language of instruction for all university courses, as it once was at Oxford and Cambridge, at Paris and Bologna, we have retained it at UNB for limited use on occasions of great academic solemnity, such as Encaenia and Convocation. The use of Latin today is a symbol of our academic descent from those earliest universities of medieval Europe and a humble reminder that the search for truth is both ancient and new.

Latin is used at the beginning of each ceremony, before the Mace is set on its ceremonial stand by the University Secretary and the Sacred Bundle has been laid by the Piluwitahasuwin and Associate Vice President, Indigenous Engagement. The President will then petition the Chancellor to begin the ceremony.

Praeses: Amplissime Cancellari, placetne tibi ut officium incipiat?

Cancellari: Placet.

President: Most noble Chancellor, is it your pleasure that the ceremony begins?

Chancellor: It is my pleasure.

Latin is also used in the supplication before the degree conferral.

WOLASTOQ HONOUR SONG

An Honour song is a nation's anthem. It honours who we are, respecting and identifying the people. It is typically sung at the beginning of an event or gathering and all in attendance are asked to stand while it's being sung.

The first Piluwitahasuwin at UNB worked with a number of talented singers to prepare the version of the Wolastoq Honour Song which is shared at academic ceremonies such as graduation.

THE SACRED BUNDLE

The Sacred Bundle is a wrapped collection of sacred items held by a designated carrier. The keeper of the Sacred Bundle carries a responsibility of courage to maintain truth in all interactions and has an obligation to promote unity within diversity. It also provides an obligation to encourage building

of respectful and sacred relationships within the university. The ceremonial contents of the Sacred Bundle will provide guidance toward the shared task of forging a new path within the promise of Piluwitahasuwawsuwakon (forging a new path toward truth and reconciliation).

The Sacred Bundle

THE MACE

The Mace, which symbolizes the authority of the university to award degrees, was officially used for the first time at UNB's 167th Encaenia in May 1996.

A gift of the university's fourth modern-day Chancellor, the late Fredrik S. Eaton, OC, the Mace was proposed by the late Colin B. Mackay, OC, QC, President Emeritus. It measures 4.5 feet in length and features an antique silver cup atop a butternut shaft.

The George II, two-handled cup was given to the university in 1995 by the late S. A. H. Bridge, the great-great-grandson of Sir Howard Douglas, Bar't. It was once part of a collection of fine silverware presented to Sir Howard by the people of New Brunswick when he returned to England, after serving as Lieutenant Governor (1823-1831). During his term, Sir Howard took great interest in the institution then known as the College of New Brunswick. He persuaded the British government to grant it a Royal Charter, as King's College, and to provide half the funding for the construction of what is now the oldest university building still in use in Canada.

The cup, hallmarked LONDON 1734, is predated by its cover which bears a 1728 hallmark. The armorial engraving on the upper half of the cup and the crest and motto on the cover are those of Douglas of Kirkness, County Kinross.

New Brunswick artisan, the late Michiel Oudemans, created the staff for the Mace. Crafted from butternut, a wood common to the province, the staff features elements of the UNB coat of arms and symbols of New Brunswick: a book of learning, beavers (in honour of Lord Beaverbrook, the university's first modern-day Chancellor), a galley, fiddleheads and Atlantic salmon.

COAT OF ARMS

The UNB coat of arms was approved by the Board in May 1956. In 1996, it was “repatriated” at a ceremony at Rideau Hall. The late Governor General Roméo

LeBlanc presided over the registration of the symbol with the Canadian Heraldic Authority.

Within the coat of arms, the university celebrates its roots, founders and history. The beavers, representing Lord Beaverbrook’s commitment to UNB; the book, carrying UNB’s motto, represents knowledge and education; and the ship is from New Brunswick’s coat of arms.

SEAL

The current UNB seal was created in 1968. The Latin on the rim states it is the seal of The University of New Brunswick. The text

on the left-hand page of the book reads in Hebrew, “In the Beginning, God Created the Heavens and the Earth... and the Spirit of God moved upon the Face of [the waters].” On the right-hand the Greek text reads, “The Gospel According to Saint John,” followed by the first six words of the first verse of John’s gospel, “In the beginning was the Word.”

The seal appears on official UNB documents, including degree parchments, contracts and other legal documents.

ALUMNI PIN

In 2000, the UNB Associated Alumni began the tradition of presenting alumni pins to graduates. The pin carries memories of a life-changing experience at UNB and serves as a symbol that graduates will always be part of the alumni family of more than 100,000 worldwide. UNB alumni are leaders and innovators, driving change and transforming knowledge into action in communities around the globe. As our graduates pave their own path and inspire others along the way, we hope they wear their UNB alumni pin with pride.

INDIGENOUS AND AFRICAN GRADUATION STOLES

From left: UNB stole worn by African and African diaspora graduands, UNB stole worn by First Nation, Inuit and Métis graduands.

Graduation stoles are worn by some graduands to recognize and celebrate the histories, cultures and identities of First Nation, Inuit and Métis students, as well as African and African diasporic students. These stoles serve as a meaningful symbol of heritage and culture, while marking this significant academic milestone.

RECESSIONAL

At the close of the ceremony, following the singing of O Canada, the audience is asked to remain standing, if members are able, until the platform party and graduates recess.

PROFESSOR EMERITUS

DR. ALLEN CURRY has been a dedicated member of the University of New Brunswick community for more than three decades, contributing to the department of biology and the faculty of forestry and environmental management.

A graduate of the University of Waterloo (BES'85, Hons.), Trent University (MSc'88) and the University of Guelph (PhD'93), Allen joined UNB in 1995 as a research associate, advancing to professor in 2006. In his retirement, he continues to serve as an honorary research professor and adjunct professor with the United Nations University Institute for Water, Environment and Health.

Allen's teaching and mentorship have supported dozens of scientists. He supervised over 55 graduate students, guided 47 undergraduate theses and served on numerous doctoral and master's committees. His courses spanned aquatic ecology, fisheries management and conservation science.

As founding member, then director of the Canadian Rivers Institute (2004–13) and current Science Fellow, Allen has been instrumental in advancing freshwater science and policy nationally and internationally. His research on hydro-ecological interactions and fisheries conservation has attracted over 25 million in funding and produced more than 150 peer-reviewed papers, two books, 100 reports and over 250 conference presentations.

Allen's leadership on national advisory boards, in editorial roles and through keynote addresses reflects his enduring influence in aquatic science. His commitment to research, teaching and service leaves a lasting legacy at UNB and beyond.

HONORARY DEGREE RECIPIENT

ANDREA FEUNEKES is a New Brunswick entrepreneur and community leader whose work links technology, resource planning and education. She earned a master of science in forestry degree from the University of New Brunswick in 1988.

Soon after graduation, Andrea co-founded Remsoft in Fredericton along with her husband Ugo. Over three decades, she helped build the company into a global supplier of advanced analytics, modelling and spatial planning tools used for sustainable land-based asset management.

Remsoft now serves more than 150 clients worldwide. Clients using its software plan and manage about half a billion acres of land. The company maintains strong ties to UNB through hiring, research links in forestry and computer science, and long-standing participation in co-op and graduate internship programs.

Andrea's leadership includes service as chair of the New Brunswick Business Council. She has served on the boards of the Wallace McCain Institute, Opportunities New Brunswick and the Stan Cassidy Foundation, and sits on the boards of AstenJohnson, an international fabrics manufacturer, and

Shaw Group Limited, which is one of Eastern Canada's leading community developers, residential builders and natural resource manufacturers.

She was a founding member of the Gathering Circle, which works to strengthen relationships between the private sector and Indigenous communities in New Brunswick. Her support has also included backing the documentary My Name is Wolastoq.

Her awards include the RBC Canadian Woman Entrepreneur of the Year and the Startup Canada Adam Chowaniec Lifetime Achievement Award. She has been named an Edelman Laureate by the Institute for Operations Research and the Management Sciences. She is a member of the Junior Achievement New Brunswick Business Hall of Fame and the forestry hall of fame of the Association of Registered Professional Foresters of New Brunswick.

Andrea continues to advocate for women in STEM, stronger links between business and education, and practical steps toward reconciliation. Her career reflects steady execution, clear purpose and a record of building capacity.

THANK YOU

The University of New Brunswick acknowledges the efforts and contributions of the many staff, faculty, students, alumni and friends who have worked diligently to organize the 197th Encaenia ceremonies. We thank you for supporting the students and being their champions.

RECESSIONAL

At the close of the ceremony, following the singing of O Canada, the audience is asked to remain standing, if members are able, until the platform party and graduates recess.

HONORARY DEGREE RECIPIENT

HABIB DABLE is a leader in the biotech and pharmaceutical sectors with more than 25 years of international experience. He holds a BBA from the University of New Brunswick, earned in 1991, and an MBA earned in 1994.

After graduating, he joined Bayer Canada and moved through senior roles in Canada, the United States and overseas. In 2015, he became president of U.S. pharmaceuticals, overseeing work across cardiology, hematology, neurology, oncology and women's health. His responsibilities included leading teams, guiding product launches and managing long-term growth in complex health-care markets.

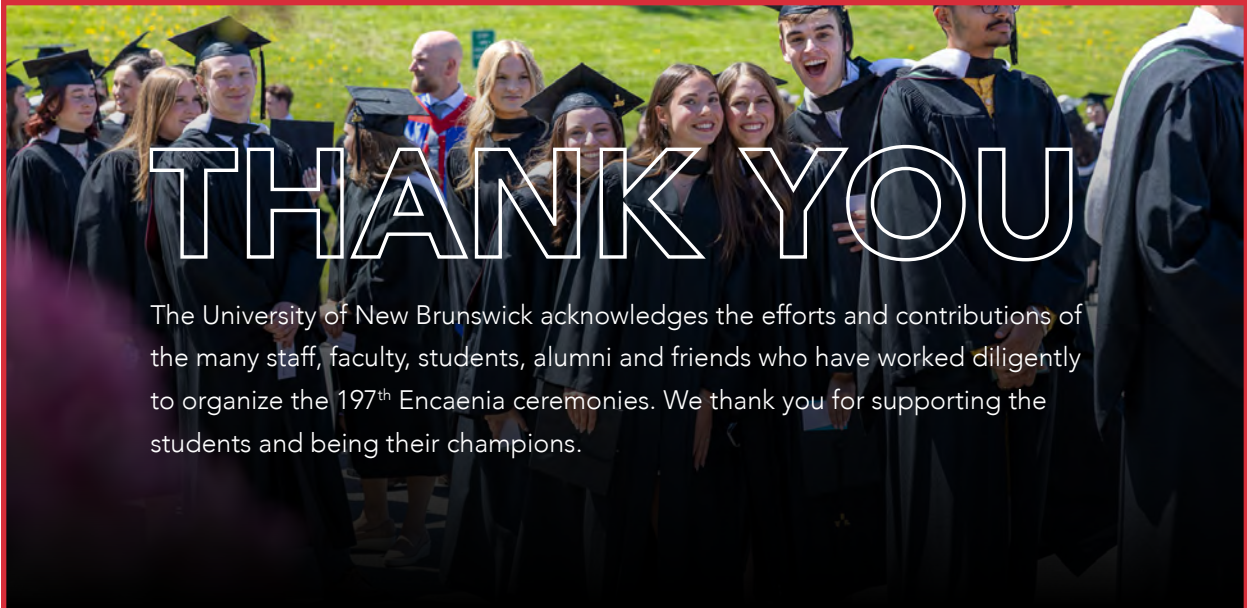

Habib later became president and chief executive officer of Acceleron Pharma. During his tenure, the company advanced late-stage programs and strengthened its path to market. In 2019, Acceleron delivered its first major therapy to patients and advanced a second program in pulmonary arterial hypertension. Over five years, Habib helped build the organization, raise capital and guide the company to its sale to Merck in 2021. He has since focused on board service, advisory work, mentorship and selective investment roles.

His work has been widely recognized. Institutional Investor named him a Top-Ranked Mid-cap Biotech CEO in 2019, 2020 and 2021. Pharmaceutical Executive included him on its Emerging Leaders list in 2016. His experience spans partnerships, product development and growth strategies across the United States and international markets. He is known for sound judgment, steady leadership and attention to patient needs.

Habib has longstanding ties to UNB. The faculty of management awarded him an alumnus certificate of achievement in 2016. He established the Joseph M. Dable Scholarship, which provides full tuition for entrepreneurial students in the faculty of management.

In 2023–2024, he served as executive-in-residence, meeting with students to discuss leadership, career paths and decision-making. Through the Dable Family Foundation, he also supports philanthropic work connected to education and community life.

Habib credits family influence, particularly lessons from his father, for shaping his ethics and perseverance. His career reflects sustained effort in complex health-care settings and a commitment to mentoring the next generation. He remains connected to UNB and to New Brunswick, returning often to share experience and help students link classroom learning with real-world practice.

The University of New Brunswick acknowledges the efforts and contributions of the many staff, faculty, students, alumni and friends who have worked diligently to organize the 197th Encaenia ceremonies. We thank you for supporting the students and being their champions.

Acting President and Vice Chancellor

RECESSIONAL

At the close of the ceremony, following the singing of O Canada, the audience is asked to remain standing, if members are able, until the platform party and graduates recess.

PROFESSOR EMERITA

DR. CARMEN POULIN (BA'80) joined the University of New Brunswick in 1991 as an assistant professor, became an associate professor in 1993 and was promoted to professor in 1999. She retired in 2025 after more than 34 years of service.

A graduate of UNB, Carmen earned her master of arts (1982) and PhD (1989) in psychology from Queen's University. Her teaching and mentorship have shaped countless undergraduate and graduate students. She supervised 34 research students, 31 honours projects, eight masters students and 17 doctoral candidates, 14 of whom completed their degrees. Her supervisory and research activities are ongoing as Honorary Research Professor.

Carmen co-founded and co-directs the Psycho-Social Ethnography of the Commonplace research group, focusing on the examination of the experience of marginalized groups, fostering interdisciplinary collaboration and mentoring emerging scholars. Her research is grounded in feminist epistemology and examines how social practices and ideologies shape the experiences of marginalized groups in hierarchical institutions. Through P-SEC, she advanced understanding of marginalized groups such as 90+ years old elders, women firefighters, LGBTQ2S+ members of the Canadian Armed Forces and Métis individuals with ties to the east of the Manitoba-Ontario border.

In 2017, Carmen organized UNB's first Queer Research Day, a landmark event promoting inclusivity and scholarly dialogue. At UNB, her leadership extended to roles such as coordinator of UNB's gender and women's studies program, director of the Honours Program in psychology, Director of the Graduate Studies in psychology, acting chair of the department of psychology and associate dean of the faculty of arts. She also occupied the role of president of the Canadian Research Institute on Women and of the Section on feminist research of the Canadian Psychological Association.

Carmen was named a fellow of the Canadian Psychological Association in 2024; received the Denmark-Gunvald Award for Feminist Research and Service from the International Council of Psychologists in 2018; was awarded a Certificate of Recognition by the Leadership Institute of Women in Psychology of the American Psychological Association; and received the UNB Arts Faculty Teaching Award for full-time faculty members in 2012.

Her record includes 75 peer-reviewed articles and book chapters, 18 research reports, 185 conference presentations, 77 invited keynote addresses and 79 media appearances supported by nearly 2 million in research funding.

HONORARY DEGREE RECIPIENT

ANNA MARIA TREMONTI is a Canadian journalist with a career spanning more than four decades in radio, television and podcasting.

She is known for her work as the founding host of CBC Radio One's *The Current*, which she led for 17 seasons. Under her leadership, the program became the most listened-to radio program in Canada. Her work brought depth and clarity to national conversations on public life, policy and global events.

Before *The Current*, Anna Maria reported for *The National* as an international correspondent. She was posted in Berlin, London, Jerusalem and Washington, covering events that reshaped regions and influenced global affairs.

Her reporting included the fall of the Soviet Union, the breakup of Yugoslavia, the first Palestinian intifada and stories across the Middle East. She also co-hosted the *Fifth Estate*, producing investigative documentaries that reached audiences in Canada and abroad.

Anna Maria began her career in Atlantic Canada. She hosted *Information Morning Fredericton*, where she developed the

reporting skills and community ties that informed her later work. She went on to assignments with CBC in Edmonton, Ottawa and on Parliament Hill. Her work ranged from breaking news to long-form interviews, documentaries and live reporting.

Since 2019, she has led AM Tremonti Productions. She created two podcast series with CBC Podcasts. *More with Anna Maria Tremonti* debuted at number one on Apple Podcasts in 2020. Her 2022 podcast *Welcome to Paradise* also debuted at number one and drew wide attention for its examination of intimate partner violence. In both projects, she used long-form storytelling to connect public issues with deep personal experience.

Anna Maria holds an honours BA in communication studies from the University of Windsor. She has received awards from Amnesty International, the Canadian Journalism Foundation, the New York Festivals and the Alliance for Women in Media.

She holds honorary degrees from Windsor, Carleton, Royal Roads, York and Mount Saint Vincent universities. Her career reflects a consistent commitment to public understanding and to the role of journalism in Canadian life.

THANK YOU

The University of New Brunswick acknowledges the efforts and contributions of the many staff, faculty, students, alumni and friends who have worked diligently to organize the 197th Encaenia ceremonies. We thank you for supporting the students and being their champions.

RECESSIONAL

At the close of the ceremony, following the singing of O Canada, the audience is asked to remain standing, if members are able, until the platform party and graduates recess.

PROFESSOR EMERITUS

DR. ERIC HILDEBRAND joined the University of New Brunswick in 1993 as an assistant professor, became an associate professor in 1999 and was promoted to professor in 2005. He retired in 2025 following 35 years of service with the department of civil engineering.

A graduate of UNB with a bachelor of science in engineering (1985) and master of science in engineering (1989), Eric completed his PhD in civil engineering from the University of Waterloo (1998). During his tenure at UNB, he supervised 50 graduate students, served on numerous departmental and university committees and received multiple awards recognizing excellence in teaching.

Eric led the UNB/Transport Canada Collision Research Team for 30 years, the UNB Transportation Group for 22 years and held an NSERC Discovery Grant throughout his career. He directed the National Rural Intelligent Transportation Systems

Research Program and in the late 1990s played a pivotal role in introducing the Road Safety Audit process, which remains widely used by highway engineers today. His expertise continues to shape the field through his work as co-author of the forthcoming *Road Safety Guide for Canada*.

His leadership extended beyond UNB as president of the Canadian Transportation Research Forum and through his service on numerous national boards and advisory committees. Eric's contributions have been recognized with the Transportation Association of Canada's Award of Academic Merit (2012), the Canadian Society of Civil Engineer's Sir Stanford Fleming Award (2017) and a Lifetime Achievement Award from the Canadian Association of Road Safety Professionals (2023).

Eric has published 100 refereed papers, 67 major research reports and co-authored 10 national design guides, leaving a lasting legacy in transportation engineering.

PROFESSOR EMERITUS

DR. HUINING XIAO joined the University of New Brunswick in 2001 as an associate professor, was promoted to professor in 2005 and retired in 2024 after 23 years of service. He continues to contribute as an honorary research professor.

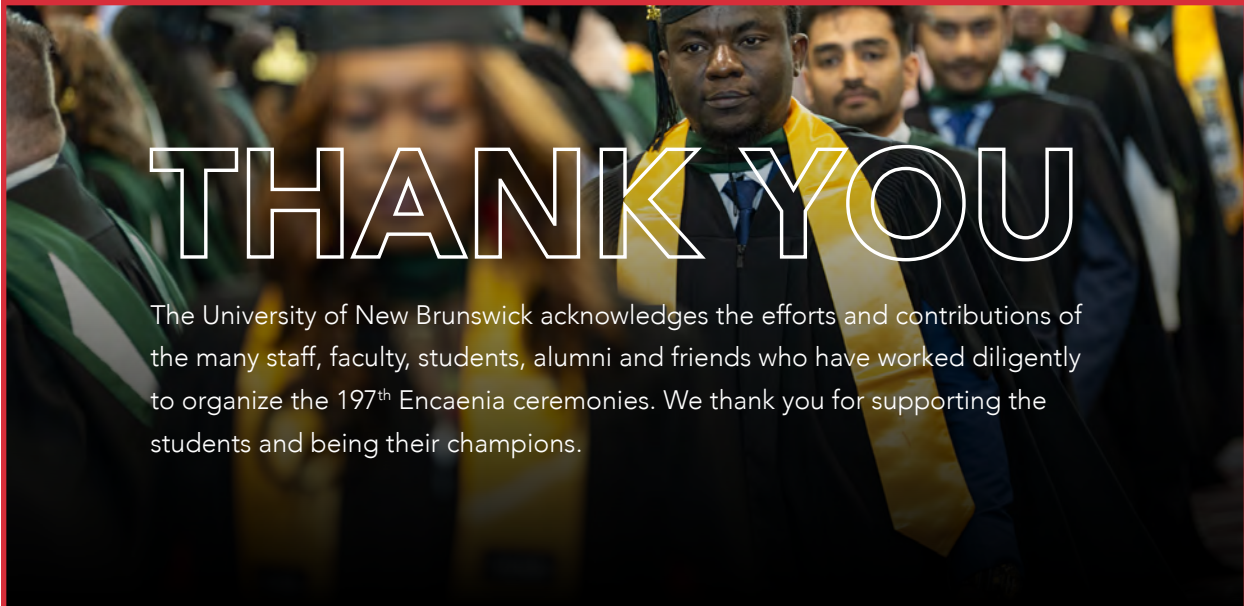

Huining earned a PhD in chemical engineering from McMaster University (1994), a master of science in engineering (1987) and a bachelor of engineering (1982) from Nanjing Tech University. At UNB, he taught chemical engineering and supervised 34 PhD students, 37 master's students and 46 postdoctoral fellows or visiting scholars. Many of his trainees now hold leadership roles in industry or academia, including prestigious research chair positions.

His research focused on creating advanced materials with real-world benefits. He developed antimicrobial-modified cellulose for personal protective equipment, biodegradable food

packaging with improved safety features and eco-friendly filters that purify water and restore soil. He also pioneered materials that slowly and efficiently release agricultural chemicals, reducing waste and environmental impact.

Internationally recognized as one of the top two per cent of researchers in his field, Huining has received multiple awards for his contributions, including the Highly Cited Researcher Award and the designation as a Canadian leader in materials science in 2024. His record includes over 500 publications, significant research funding and presentations at major conferences worldwide. He was elected a Fellow of the Canadian Academy of Engineering in 2015.

Huining's work shows how chemical engineering can create sustainable materials that protect health, improve food safety and support environmental stewardship.

THANK YOU

The University of New Brunswick acknowledges the efforts and contributions of the many staff, faculty, students, alumni and friends who have worked diligently to organize the 197th Encaenia ceremonies. We thank you for supporting the students and being their champions.

WELCOME TO THE UNB ALUMNI FAMILY

Congratulations graduates! Today we celebrate you and all that you've accomplished during your time at UNB. Crossing the stage marks the beginning of a lifelong connection to your alma mater as ProudlyUNB alumni.

You're part of a family of more than 100,000 alumni worldwide. UNB alumni are leaders and innovators, transforming knowledge into action in communities around the globe. Your role starts by staying connected. You now have access to exclusive perks, programs and services designed to support you in all stages of life, encourage continuous learning and keep you connected to your university and peers following graduation.

Make the most of your alumni experience:

- 1 Let us know your preferred email at unb.ca/alumniupdate to stay in the loop!
- 2 Take advantage of alumni-exclusive perks and discounts
- 3 Explore our virtual and continuous learning programs
- 4 Connect with fellow alumni at network events around the world
- 5 Get inspired by our Alumni News digital magazine
- 6 Purchase a diploma frame and display your degree with pride
- 7 Follow @unbalumni on social media

Graduates, we can't wait to see where you go and what you do!

You are one of 100,000 reasons we are proud.

PHOTOGRAPHY AND LIVESTREAM

One photo will be taken of each graduate on the stage. In June, graduates will be able to download print quality photographs at [UNB.ca/graduation](https://unb.ca/graduation).

Each ceremony is livestreamed and broadcast at [UNB.ca/graduation](https://unb.ca/graduation). UNB is committed to protecting personal information. If you have any privacy concerns, contact the University Secretariat, at secretariat@unb.ca or (506) 453-4613.

ACADEMIC DRESS

All graduands and members of the Academic Procession wear academic dress during the ceremony – academic robe, hood, and mortarboard or befeater cap. The dress worn is based on academic level attained – Bachelor, Master and Doctoral. Each degree has a distinctive hood as follows:
