

UNB Transportation Group Celebrates 50th Anniversary

On September 29th, 2018 over 70 graduates, faculty and guests gathered at the Wu Centre to celebrate the 50th anniversary of the UNB Transportation Group. Graduates from as far away as India, Trinidad, and Alaska made the trip to reconnect with former classmates and faculty.

Since its inception in 1968, the Transportation Group has produced over 200 graduates with Masters and PhD degrees specializing in all facets of transportation including engineering, planning, management, policy and operations. Over the years graduates have risen to some of the highest positions within government, consulting firms, and industry. The group's impact has been felt at regional, national and international levels. Co-founder Dr. Frank Wilson as well as some of the very first graduates of the program were in attendance.
