

CTAR Radiation Therapy

DH03

- Variable List -

Disclaimer: This variable list is not a final product but is intended to provide information about the variables in this data set while a codebook is being developed. Due to the ongoing nature of this work, NB-IRDT makes no guarantee that the information herein is complete.

Variable Name	Description
IRID	Temporary Record Code
Referral Date Received	The date on which a request for consultation with a specialist (Rad Onc) is received by the Oncology Center.
Referral in Type	Regular referral/WTG Transfer Intra-provincial/WTG Recourse into province.
Scheduled Consult Date	The date on which the initial consultation has been scheduled.
Actual Consult Date	Date on which the initial consultation between oncologist and patient takes place (i.e. completion of initial consult appointment).
Patient Urgency	Description of the patients urgency as indicated by Radiation Oncologist (likely at the time of consultation): Emergent Urgent Intermediate Standard
Ready to Treat Date	The date when any planned delay is over, and the patient is ready to begin treatment from both a social/personal and medical perspective.
On Hold Start Date	Date on which patient is put on hold
On Hold Reason (was previously named the Reason for Status change) (On Hold/Remove reasons) field. Separate Hold and Removal Reasons	Reason for change in patient status
Estimated RTT Date	Date on which a patient who is currently "on hold" is expected to be ready to being radiation therapy treatment.

On Hold End Date	Used as the date to indicate the actual end date of the on hold period for a patient (may be set to RTT date on screen only)
Scheduled First Treatment Date	Date on which the patient's first treatment is scheduled.
Actual First Treatment Date	The date on which the first radiation therapy treatment is delivered to the patient.
Actual Final Treatment Date	Date the final treatment was delivered.
Removal Reason	Reason description of why patient referral/request for treatment is removed: Choice Deceased Medical Reason
Reason for Treatment Delay	Reason for which first treatment was delayed (i.e. machine unavailability, patient no-show, appointment cancellations, etc)
Other Reason for Treatment Delay	If reason for treatment delay is not available in dropdown (above), this text field will allow user to enter reason description.
Referral Out Type	Used to indicate the whether the patient is being referred to a center within the province, out of the province, transferred intra provincially as a result of the wait time guarantee, or sent out of province for Recourse (for the WTG). The following values apply: Referral – Out of Province WTG Transfer-Intra-Provincial WTG Recourse – Out of Province
Treating Facility/Location	Used to indicate which facility the patient is being referred/transferred to.
Referral Out Date	Used to indicate the date on which the patient is referred/transferred out of the center.
Recourse Initiated Date	Used to indicate the date on which NBCN is contacted by the center requesting recourse options be investigated for a patient. This date only applies when the Transfer Type selected is WTG Recourse – Out of Province.
Recourse Note: Details	Note: Will be null as no patients (to date) have been referred out of province for Recourse Note details (free text format)
Excluded from Guarantee Date	Note: Will be null as no patients (to date) have been referred out of province for Recourse Used to indicate the reason for which a patient is excluded from the guarantee.
Other' Reason Description	If 'Other' is selected from the Reason for Exclusion from Guarantee dropdown, a text field will be used to capture the reason description.

Treating Facility RTT	Based on the Discharge Summary information, this field is used to capture the Treating Facility Ready to Treat date for the patient.
Treating Facility First Treatment	Based on Discharge Summary information, this field is used to capture the Treating Facility First Treatment date for the patient.
Treating Facility Last Treatment	Based on Discharge Summary information, this field is used to capture the Treating Facility Last Treatment date for the patient.
Referring Facility RTT date	For patients sent to NB for treatment as a result of Recourse, this field is used to capture the patient's RTT date based on the referring facility.
Referring Facility/Location	Used to indicate the Facility from which the patient is being transferred from.
Date of Diagnosis	Date of Diagnosis (often is representative of the date the DX is entered in the Oncology Information System.
Diagnosis/Site	Identified as an ICD 10 diagnosis code (i.e. C50=Breast C34=Lung) To reflect the primary diagnosis site.
Tumor Group	Name of tumor group derived from ICD10 cancer site.
Recurring (Retreat)	Used to depict the Diagnosis is a recurrence of a previous cancer/primary site.
Treatment Modality	Currently only Radiation Therapy treatment (external beam) is collected by CTAR (excluding Brachytherapy).
Treatment Type	Name/description of the treatment type being delivered (CTAR currently only collects treatment type of external beam radiation therapy).
Facility ID	Identifier for the facility/hospital where the treatment is to be performed.
Treatment Planning Type	Name of the planning type used in preparation for treatment(i.e. Regular or IMRT).
