

# Discharge Abstract Data

## DH05

### - Variable List -

*Disclaimer: This variable list is not a final product but is intended to provide information about the variables in this data set while a codebook is being developed. Due to the ongoing nature of this work, NB-IRDT makes no guarantee that the information herein is complete.*

| Variable Name      | Description |
|--------------------|-------------|
| NB-IRDT ID#        |             |
| Province           |             |
| Institution Number |             |
| Fiscal Year        |             |

#### Patient/Client Demographics

| Variable Name                       | Description |
|-------------------------------------|-------------|
| Province issuing health care number |             |
| Responsibility for payment          |             |
| Provincially ancillary data         |             |
| Postal code                         |             |
| Residence code                      |             |
| Birthdate                           |             |
| Age code                            |             |
| Age units                           |             |
| Gender                              |             |

#### Admission Information

| Variable Name           | Description |
|-------------------------|-------------|
| Admission date          |             |
| Admission time          |             |
| Institution from type   |             |
| Institution from number |             |
| Admit category          |             |
| Readmission code        |             |
| Ambulance code          |             |
| Entry code              |             |
| Date patient left ED    |             |

---

 Time patient left ED

 Wait time in ED
 

---

### Separation Information

| Variable Name         | Description |
|-----------------------|-------------|
| Discharge date        |             |
| Discharge time        |             |
| Institution to type   |             |
| Institution to number |             |
| Discharge disposition |             |

### Patient Service

| Variable Name            | Description |
|--------------------------|-------------|
| Main patient service     |             |
| Main patient sub-service |             |

### Blood Information

| Variable Name                            | Description |
|--|-------------|
| Blood transfusion not received indicator |             |
| Blood transfusion received indicator     |             |
| Red blood cell indicator                 |             |
| Platelets indicator                      |             |
| Plasma indicator                         |             |
| Albumin indicator                        |             |
| Other blood component indicator          |             |
| Autotrasfusion indicator                 |             |
| Weight in grams                          |             |
| Age group                                |             |
| Coding classification indicator          |             |
| Institution type                         |             |
| Analytical institution type              |             |
| Abstract flow                            |             |
| 1 <sup>st</sup> special care unit number |             |

### Service Transfer

| Variable Name                       | Description |
|-------------------------------------|-------------|
| First service transfer              |             |
| First service transfer sub service  |             |
| First service transfer days         |             |
| Second service transfer             |             |
| Second service transfer sub service |             |
| Second service transfer days        |             |
| Third service transfer              |             |

---

Third service transfer sub service  
Third service transfer days

---

### Diagnosis Information

| Variable Name                               | Description |
|---|-------------|
| CA staging clinical tumour                  |             |
| CA staging clinical node                    |             |
| CA staging clinical metastasis              |             |
| CA staging pathological tumour              |             |
| CA staging pathological node                |             |
| CA staging pathological mestatsis           |             |
| CA staging summary stage                    |             |
| Diagnosis 1 prefix                          |             |
| Diagnosis 1 code                            |             |
| Diagnosis 1 type                            |             |
| Diagnosis 1 cluster                         |             |
| Diagnosis 2 prefix to Diagnosis 25 prefix   |             |
| Diagnosis 2 code to diagnosis 25 code       |             |
| Diagnosis 2 type to diagnosis 25 type       |             |
| Diagnosis 2 cluster to diagnosis 25 cluster |             |

### Interventions

| Variable Name  | Description |
|--|-------------|
| Death in OR indicator                                |             |
| Intervention 1 to intervention 20 episode number     |             |
| Intervention 1 intervention in episode number        |             |
| Intervention 1 to 20 episode start date              |             |
| Intervention 1 to 20 episode start time              |             |
| Intervention 1 to 20 episode end date                |             |
| Intervention 1 to 20 episode end time                |             |
| Intervention 1 to 20 begun pre-admit flag            |             |
| Intervention 1 to 20 code                            |             |
| Intervention 1 to 20 status attribute                |             |
| Intervention 1 to 20 location attribute              |             |
| Intervention 1 to 20 extent attribute                |             |
| Intervention 1 to 20 provider number                 |             |
| Intervention 1 to 20 provider service                |             |
| Intervention 1 to 20 tissue                          |             |
| Intervention 1 to 20 location                        |             |
| Intervention 1 to 20 anesthetist (obfuscated format) |             |
| Intervention 1 to 20 anesthetic technique            |             |

|  |
|--|
| Intervention 1 to 20 out of hospital indicator |
| Intervention 1 to 20 out of hospital indicator |
| Intervention 1 to 20 OOH institution number    |
| Intervention 1 to 20 unplanned return to OR    |
| Intervention 1 to 20 episode duration          |

## Project Information

| Variable Name           | Description |
|-------------------------|-------------|
| Project 1 to 5 number   |             |
| Project 1 to 5 field 1  |             |
| Project 1 to 5 field 2  |             |
| Project 1 to 5 field 3  |             |
| Project 1 to 5 field 4  |             |
| Project 1 to 5 field 5  |             |
| Project 1 to 5 field 6  |             |
| Project 1 to 5 field 7  |             |
| Project 1 to 5 field 8  |             |
| Project 1 to 5 field 9  |             |
| Project 1 to 5 field 10 |             |
| Project 1 to 5 field 11 |             |
| Project 1 to 5 field 12 |             |
| Project 1 to 5 field 13 |             |
| Project 1 to 5 field 14 |             |
| Project 1 to 5 field 15 |             |
| Project 1 to 5 field 16 |             |
| Project 1 to 5 field 17 |             |

## Reproductive Care Reproductive Care Info

| Variable Name                         | Description |
|---------------------------------------|-------------|
| Previous term deliveries              |             |
| Previous pre-term deliveries          |             |
| Previous spontaneous abortions        |             |
| Previous therapeutic abortions        |             |
| Previous live births                  |             |
| Clinical gestation weeks at admission |             |
| Delivery time                         |             |
| Date of last menses                   |             |
| Breastfeeding indicator               |             |
| Clinical gestation weeks at delivery  |             |
| Clinical gestation weeks at discharge |             |
| Pre-delivery days                     |             |

**Mental Health Info**

| <b>Variable Name</b>                  | <b>Description</b> |
|---------------------------------------|--------------------|
| Source of referral                    |                    |
| Method of admission                   |                    |
| Change in legal status from admission |                    |
| AWOL                                  |                    |
| Suicide                               |                    |
| Previous psychiatric admission        |                    |
| Referred to                           |                    |
| ECT treatment indicator               |                    |
| Number of ECT treatments              |                    |
| Education                             |                    |
| Employment status                     |                    |
| Financial support                     |                    |

**Special Care**

| <b>Variable Name</b>                    | <b>Description</b> |
|---|--------------------|
| Death in special care indicator         |                    |
| Glasgow Coma scale                      |                    |
| Total special care hours                |                    |
| Special care 1 to 6 unit number         |                    |
| Special care 1 to 6 unit admit date     |                    |
| Special care 1 to 6 unit admit time     |                    |
| Special care 1 to 6 unit discharge date |                    |
| Special care 1 to 6 unit discharge time |                    |
| Special care 1 to 6 hours               |                    |
| Vendor id for abstracting               |                    |
| Vendor id for grouping                  |                    |
| Total length of stay                    |                    |
| Acute length of stay                    |                    |
| ALC length of stay                      |                    |

**Vendor Value Added Data**

| <b>Variable Name</b>                      | <b>Description</b> |
|---|--------------------|
| Vendor MCC                                |                    |
| Vendor CMG                                |                    |
| Vendor CMG age category                   |                    |
| Vendor Comorbidity level                  |                    |
| Vendor Flagged intervention count         |                    |
| Vendor Intervention event count           |                    |
| Vendor Intervention OOH count             |                    |
| Vendor Inpatient RIW atypical code        |                    |
| Vendor ELOS days                          |                    |
| Vendor inpatient resource intensity level |                    |
| Vendor inpatient case weight              |                    |
| Vendor MAC code                           |                    |
| Vendor CACS code                          |                    |

|  |
|--|
| Vendor CACS RIW                                  |
| Vendor CACS age category code                    |
| Vendor CACS anesthetic code                      |
| Vendor CACS investigative technology total count |

**CIHI Case Mix Value Added Data**

| <b>Variable Name</b>                      | <b>Description</b> |
|---|--------------------|
| CMG Methodology year                      |                    |
| CMG Methodology version                   |                    |
| MCC                                       |                    |
| CMG                                       |                    |
| CMG return code                           |                    |
| MCC partition                             |                    |
| Comorbidity level                         |                    |
| Comorbidity total factor                  |                    |
| CMG age category                          |                    |
| Flagged intervention count                |                    |
| Intervention event count                  |                    |
| Intervention OOH count                    |                    |
| CMG Intervention                          |                    |
| CMG Intervention status                   |                    |
| CMG Intervention location                 |                    |
| CMG Intervention extent                   |                    |
| CMG Intervention episode                  |                    |
| Diagnoses used for CMG assignment         |                    |
| Inpatient RIW                             |                    |
| Elos days                                 |                    |
| ELOS RIW return code                      |                    |
| Inpatient RIW atypical code               |                    |
| Inpatient resource intensity level        |                    |
| Inpatient resource intensity total factor |                    |
| Filler                                    |                    |
| Trim days                                 |                    |
| Cardioversion flag                        |                    |
| Cell saver flag                           |                    |
| Chemotherapy flag                         |                    |
| Dialysis flag                             |                    |
| Heart resuscitation flag                  |                    |
| Invasive ventilation ge 96 hours flag     |                    |
| Mechanical ventilation It 96 hours flag   |                    |
| Feeding tube flag                         |                    |
