Hongchang (Gary) Bao studied for a Bachelor of Science degree in Computer Science at UNB Saint John from 2016 to 2018. He was a Dean's list student and completed a Certificate in Data Analytics.

While at UNB, Gary worked on multiple projects with different professors in Computer Science, Math's and Stats departments and drafted several manuscripts for publication. He developed expertise in data analytics using machine learning algorithms, R, linear regression, cluster analysis, and decision trees.

Gary previously obtained a Master's in Business Administration (Accounting and Finance) from University of International Business and Economics in Beijing, China and studied Computer Science at Baoding Vocational and Technical College in Heibei, China.

Gary is back at graduate school, where he is working towards a Master's in Computer Science at the University of Alberta.
